

MARCH TO END FOSSIL FUELS

SEPTEMBER 17th >>> NYC

WE ARE LIVING IN A
CLIMATE EMERGENCY.

Endless wildfires, record breaking heat, rising sea levels - yet the Biden administration is approving more drilling, more emissions, and more theft of Indigenous lands. There is only one force that can turn back the destruction of our climate - mass mobilization!

Sponsored by: Food & Water Watch, Fridays for Future, Honor the Earth, The Labor Network for Sustainability, Sunrise Movement, Elders Climate Action, Society of Native Nations, etc.

Join our planning meetings every Sunday now until the march! And reserve your seat on our bus from CT to NYC!
